

One Planning Scheme for the Tablelands

Preliminary Community Engagement

The Tablelands Regional Council is taking the first steps towards a new planning scheme which will manage future development over the entire Tablelands region.

With the community's advice and guidance, we seek to develop a framework for managing urban and regional development in the Tablelands which is sustainable, transparent and fair.

TRC invites you to participate in any of the community workshops at the following venues, to contribute your thoughts and concerns for the future management of our towns and regional landscapes.
